

Farm Haus

Industrial Modern

Inspired by the German Alpine region, the FARM HAUS comes ready to enjoy the pleasures of the outdoors. From the tonal colours and mixtures of both brick and cladding this home is equipped to bring you back to nature by using its cabin like exterior and functional interior that will allow you to be one with your surroundings. With a subtle side entrance, galley style kitchen and privacy with the bedrooms upstairs this narrow lot design is all about uniqueness and comfortable style whilst allowing the picturesque windows throughout the home to filter and frame the outdoors.
